

Assignment 5 supplement

Using your university's library website find and then read the paper by Ledneva et al. 2004 and then answer the subsequent questions:

Ledneva, A., Miller-Rushing, A.J., Primack, R.B., and Imbres, C. 2004. Climate change as reflected in a naturalist's diary, Middleborough, Massachusetts. *Wilson Bulletin* 116:224-231.

In 3-5 sentences, provide an interpretation of Figure 2.

How would a graph for the Ruby-throated Hummingbird look in comparison to Figure 2?

What article would you read next that was referenced in this article and why?

Find 1 relevant article that is more recent that has cited this article. Give the proper CSE citation.
