Hortensia Soto (b. 1960s)

Soto was born in Mexico and grew up in western Nebraska. She is professor at Colorado State University, having previously taught at the University of Southern Colorado, and at the University of Northern Colorado. Her research and extensive publications center on the teaching and learning of undergraduate mathematics, with an eye towards equity in the classroom. Soto co-founded and directed the program Las Chicas de Mathemáticas, an outreach program for mathematically talented high school girls, many of whom are headed towards being first-generation college students. Soto received an MAA Meritorious Service Award (2012) and an MAA Haimo Award (2018).

This poster is part of the EvenQuads project, which combines innovative mathematical card games with learning about amazing women mathematicians. The project celebrates the 50th anniversary of the Association for Women in Mathematics.
