

Kristin Lauter (b. 1969)

Lauter works at Microsoft Research, where she is currently a Principal Researcher and Research Manager of the Cryptography Group. She has also made significant contributions related to promoting women in mathematics. She served as President of the AWM (2015–2017) and was the lead PI for NSF AWM ADVANCE Grant (2015–2020) to

build research networks for women in mathematics. Lauter is also Editor of Springer's Association for Women in Mathematics Series. She co-founded the Women in Numbers Network, a collaboration community for women in number theory. For her work, Lauter was honored as a Fellow of AMS (2015), AWM (2017), and SIAM (2020).

This poster is part of the EvenQuads project, which combines innovative mathematical card games with learning about amazing women mathematicians. The project celebrates the 50th anniversary of the Association for Women in Mathematics.
