

Talitha Washington

(b. 1974)

Washington is the inaugural Director of the Atlanta University Center's Data Science Initiative, and also full professor at Clark Atlanta University. She previously taught at Howard University and worked as an NSF Program Director. She was the first Black American to earn a mathematics PhD from the University of Connecticut (2001). Washington publishes in applied mathematics and best practices on achieving racial and ethnic diversity in STEM. She received the Outstanding Faculty Award at Howard University (2019), the Black Engineer of the Year STEM Innovator Award (2019) and the NSF Director's Award for Superior Accomplishment (2020). Washington is a fellow of both the AMS (2021) and the AWM (2021).

This poster is part of the EvenQuads project, which combines innovative mathematical card games with learning about amazing women mathematicians. The project celebrates the 50th anniversary of the Association for Women in Mathematics.
