

# Vilma Mesa

## (b. 1963)

Mesa hails from Colombia and is a full professor both in the College of Education and the Department of Mathematics at the University of Michigan. She has over 100 publications on mathematics education and curriculum development, including books, journal articles, and book chapters. Her scholarship focuses on mathematics education reform. Mesa held an NSF CAREER Award (2008–2013), was a Fulbright Scholar (2016), and has

served as PI or co-PI on multiple federally funded projects. She has served on the editorial board of four mathematics education journals. In 2010, Mesa received the Pattishall Faculty Enhancement Award at the University of Michigan School of Education.

This poster is part of the EvenQuads project, which combines innovative mathematical card games with learning about amazing women mathematicians. The project celebrates the 50th anniversary of the Association for Women in Mathematics.
