

Joan Ferrini-Mundy

(b. 1954)

Joan Ferrini-Mundy earned her PhD from the University of New Hampshire in 1980. She is currently the president of the University of Maine, having previously worked for the National Science Foundation and in academia. She is best known for chairing the writing group for NCTM's Principles and Standards for School Mathematics (2000). She has published extensively

on mathematics education and STEM education policy. She serves on multiple boards and has received numerous grants from NSF and other agencies. She is a Fellow of the American Association for the Advancement of Science (2011) and the American Mathematical Society (2018). She also received the 2000 Louise Hay Award from AWM.

This poster is part of the EvenQuads project, which combines innovative mathematical card games with learning about amazing women mathematicians. The project celebrates the 50th anniversary of the Association for Women in Mathematics.
