

# Sellenne Bañuelos

## (b. 1985)

Sellenne Bañuelos obtained her PhD from USC (2013). She is currently an associate professor at California State University Channel Islands (CSUCI) and associate director at the Institute for Pure and Applied Mathematics (IPAM). Bañuelos is on the leadership team of Project PROMESAS, a five-year, \$6 million Hispanic-Serving Institution STEM grant.

Bañuelos was an organizer and participant at the IPAM Latinx in the Mathematical Sciences Conferences in 2015, 2018, and 2022. She serves as an advisor to the CSUCI SACNAS chapter, and does mentoring through the national Math Alliance and the CSU Alliance PUMP program. Bañuelos received a 2020 MAA Henry L. Alder Award for distinguished teaching.

This poster is part of the EvenQuads project, which combines innovative mathematical card games with learning about amazing women mathematicians. The project celebrates the 50th anniversary of the Association for Women in Mathematics.
