

# Ulrica Wilson

(b. 1970s)

Ulrica Wilson obtained her PhD in 2004 from Emory University. She is currently Associate Professor of Mathematics at Morehouse College. Her mentorship efforts supporting women and underrepresented minorities in mathematics are widely acknowledged. For eight years, Wilson was a Co-Director of the EDGE Program, a mentoring program designed to support the academic development and research activities of women in

mathematics. She also served as the Vice-President of NAM (2018), and is currently the Associate Director of Diversity and Outreach at ICERM. Wilson received a 2018 Presidential Award for Excellence in Science, Mathematics, and Engineering Mentoring, and was named a 2019 AWM Fellow.

This poster is part of the EvenQuads project, which combines innovative mathematical card games with learning about amazing women mathematicians. The project celebrates the 50th anniversary of the Association for Women in Mathematics.
