

Main Page

Welcome to the BIRDD Problem Space Wiki

In this collection of pages you will find detailed information about different data, analysis tools, research literature, and teaching materials. We have put this in a wiki so that it is easy for others to contribute and extend the information that is collected here.

Our goal is to foster a community of users who will be able to take advantage of these resources to pursue their own research and learning. You can use the following links to jump to the launch pages for the following sections.

General Galapagos Research Resources

To complete this project we will be researching existing resources around bird and finch data. We are beginning our research in looking for repositories of bird song data and tools with which to analyze this data. Click below for more information on each topic:
