Quick Tips and Best Practices for MURAL

Tips for teaching for MURAL

Textbook lists

Being a productive scholar

Student research expectations and authorship

List of undergraduate journals

Collections

Link to collections area (link)

- Getting students excited about math
- Tips and resources for writing and presentations
- Pedagogical readings
- Curriculum: Projects for upper-level modeling courses, resources for MURAL course, entry-level modeling resources, Just in time skills resources
- Diversity and inclusion
- Resources for advising MURAL
- Funding and other research logistics for MURAL
- Computing tools – LaTeX, R, MatLab, computing tools”>collaborativecomputing tools
- Resources from AALAC meeting

Discussions

- General discussion
- Seeking a collaboration…or speaker or other expertise

Ongoing projects
• Developing modules on writing and communication of mathematical models
• Subject specific problem sets
• Video modules for students
• Next steps for MURAL community
