

Entrepreneurs in Biosciences

Join the NSF funded CONNECT Network, a community of practice to share resources and experiences in biosciences entrepreneurship and undergraduate biology education

Why connect now?

- Share your expertise with **budding entrepreneurs** as a way to give back to the community
- **Build relationships** with educators and community members who support biosciences innovators
- Develop a **diverse accountability group** to share unique founders experiences

Why stay connected?

- Access to **well-trained undergraduate students** just before they enter the workforce, as interns or employees
- Ability to **influence the national bio-entrepreneurship curriculum** toward use-based innovation
- Mentorship opportunities to **support BIPOC women in biosciences entrepreneurship**

Other ways to Participate in CONNECT

- Share your entrepreneurial experiences and advice for future innovators through **voluntary speaking opportunities** to a national audience within the CONNECT Network

About Us:

Through NSF funding, we are creating a vibrant, inclusive community space where educators, students, and entrepreneurs can collaborate to share resources and best practices for incorporating the emerging field of biosciences entrepreneurship into undergraduate biology education, with an attention on BIPOC community members. The CONNECT network aims to have broad national membership including historically Black Colleges and Universities (HBCUs) and other Minority Serving Institutions (MSIs). The initial outcome of this network will be a data-rich snapshot of participants' needs and a directive for an inclusive entrepreneurial ecosystem that enriches the undergraduate curriculum.
