FEATURING · Useful presentations · Vital designated and informal conversation groups on topics of interest · Rich and interactive conference platform · Instant conversations · Small Meet-ups · Conference videos posted on SIMIODE YouTube Channel · Special sessions on SIMIODE SCUDEM – student challenges

Expanded from successful two-day format in 2021 and condensed from the comprehensive four-day event in 2022

SIMIODE –Systemic Initiative for Modeling Investigations and Opportunities with Differential Equations is a non-profit Community of Practice dedicated to supporting the teaching and learning of differential equations, a pivotal STEM course, with modeling throughout and in context.
