

Welcome to SIMIODE EXPO 2024
9 - 11 February 2024

Brian Winkel, Director SIMIODE, Chardon OH USA

Welcome Back

We hope Day 1 of EXPO 2024 proved
interesting, worthwhile, useful, and enjoyable.

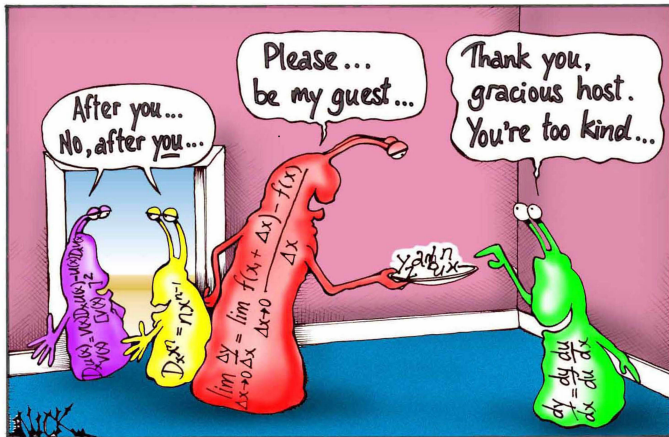

Lots more to come today and tomorrow.

- ▶ Second Keynote on AI and evening Discussion on AI
- ▶ SCUDEM team presentation
 - Student challenge teams discuss their modeling efforts
- ▶ Textbook issues
 - SIMIODE Textbook and your own publishing efforts
- ▶ Climate Change Models in your DE classroom
- ▶ Presentation and Discussion on modeling software WikiModel
- ▶ Applications of differential equations
- ▶ Prison Math Project - Opportunities to reach out
- ▶ Classroom activities
- ▶ Opportunities to meet new colleagues

Comments

- ▶ Slightly trimmed recordings of your video are available under "Watch Recording" button to the right of each recorded session. These are ONLY available to conference attendees. We will be collecting and posting on SIMIODE YouTube channel all conference presentations, NOT discussion sessions.
- ▶ We will ask you to help us learn more about what you liked (and did not like) about the conference and how we can improve through a Survey at the end of the Conference.
- ▶ Please enjoy the sessions today!

We turn this over to Dr. Leigh Noble, Technical Director SIMIODE, for some information on successful conferencing.

Differential equations.
