

# Pre-Workshop Instructions for Can My Students Make A Graph

BIOME Institute Summer 2022

Please do two things prior to the beginning of the workshop if you have time.

1. Create an account and install the SimUText application on your computer by following the instructions below
2. In the SimUText application, load up the Moose and Wolves and Graphs assignment. You don't need to actually go through the assignment, though you are welcome to. Loading it up just assures that the SimUText application is working on your computer.

I will briefly discuss the graphing portion of the Moose and Wolves and Graphs assignment that starts on Page 6 of Section 2, so if you do want to go through that, you'll be a step up in our workshop.

## Instructions for creating an account and installing the SimUText application

It is important that you review the information below *before* you subscribe to the SimUText for **BIOME Institute** at **Simbio University**. **To avoid possible problems, do not wait until the last minute.**

1. **CHECK YOUR TECH!**  
Visit <https://simutext.zendesk.com/hc/en-us/categories/200170134-Check-Your-Tech-> to confirm that the SimUText application will work on your computer, and/or to explore your options if there is a problem.
2. **SimUText Voucher Code (optional)**  
If you purchased a SimUText Voucher from your bookstore, be sure to have it with you when subscribing, as you will need to enter your voucher code.
3. **Registration Link**  
When you are ready to subscribe and download installers, follow this link to initiate the process: <https://simutext2.com/student/register.html#/key/UqR5-gSGc-WFpS-Buae-33hR>
4. **SimUText Application Installers**  
After you have completed the subscription process, if you need to download the SimUText application installers again, you will be able to access them by logging into the [SimUText Student Portal](https://simutext2.com/student/) (<https://simutext2.com/student/>).

**Save this email!** Should you encounter problems, you may need your course-specific Access Key. It is: **UqR5-gSGc-WFpS-Buae-33hR**
