

Activity 2.3: Constructing Your Argument

Write a position paper to respond to the unit problem: *To what extent should we build and/or rebuild coastal communities?*

As a group, complete Table 3: Constructing Your Argument. Each member should complete his or her own table. After you complete Table 3, independently write your 500- to 1000-word position paper. Review the criteria in the left-hand column as well as the performance levels.
